

Stewart Investors Asia Pacific Sustainability Fund⁶

Fund objective

The fund aims to achieve capital growth over the long term (at least five years).

Fund strategy

The fund invests in a diversified portfolio of equity or equity-related securities of companies that are incorporated or listed, or where a majority of their economic activities take place, in the Asia Pacific region (excluding Japan) and invests in quality companies that are positioned to contribute to, or benefit from the sustainable development of the countries in which they operate.

The manager invests with capital preservation in mind, meaning it defines risk as losing client money, rather than deviation from a benchmark index. The manager’s focus on quality companies rather than investing according to a benchmark index may lag in very strong liquidity-driven or momentum-led markets and may perform well when due recognition is given to companies with quality management teams, good long-term growth prospects and sound balance sheets.

We have compared the ongoing charge figure (**OCF**) that is made up of an annual management charge (**AMC**) and the additional expenses (**AE**) of each share class against a relevant peer group. Both Class A (Acc) EUR and Class A (Acc) GBP shares have OCFs below the median whereas both Class B (Acc) EUR and Class B (Acc) GBP shares have OCFs above the median.

The median is defined as the mid-point of our peers who we are assessing our OCF against.
