Dear Investor,

Client Code: «Client Code»

First Sentier Investors (UK) Funds Limited (“**we**”, “**FSI**”, “**us**”, or the “**ACD**”), are the authorised corporate director of First Sentier Investors ICVC (the “**Company**”). We are writing to inform you about some changes to your funds (the “**Funds**”).

1) Change of Depositary and Fund Administrator

The FSI group continually review our service providers to ensure they are providing the best quality of service to you our clients. In light of this we initiated a review that covered Third-Party Administrator (‘TPA’) services to the majority of the FSI group’s global fund ranges. TPAs provide key depositary and administrative services including the pricing and dealing of our Funds.

As a result of this review, The Northern Trust Company (NT) has been selected as the TPA to provide the highest level of consistent, good value service across the FSI group’s fund ranges. The FSI group will cover the cost of this exercise and we are confident that this new simplified global operating model will bring meaningful benefits to our clients such as reduction in overall cost and high quality client servicing.

We are therefore writing to tell you about the following changes taking place on 9 December 2024. We will refer to this as the “**Effective Date**” for the rest of this letter.

- The **Company’s Depositary** will change from The Bank of New York Mellon (International) Limited “**BNY**”) to Northern Trust Investor Services Limited; and
- The **Company’s Fund Administrator** and Registrar will change from BNY to The Northern Trust Company, London Branch (“**TNTC**”).

2) Change to the Fund Accounting Fee

Background

Ongoing Charge (or “OCF”)

All Funds incur costs to cover their day-to-day operations. These costs currently include:

- (i) an annual management charge that is paid to us for carrying out our duties and responsibilities;
- (ii) the fees and expenses of the Depositary and the Registrar;
- (iii) transaction charges and custody charges; and
- (iv) other additional expenses, such as the fees and expenses of the professional advisers of the Company, including its auditors.

These charges and expenses make up each Fund's annual OCF, which is paid out of the Fund's assets. If you'd like more information, details on each Fund's OCF rate are featured in the Fund Key Investor Information Document ("KIID") available from our website: <https://www.firstsentierinvestors.com/uk/en/private/performance/literature.html>.

What is changing?

Currently FSI pays the fees and expenses relating to the fund accounting services provided by BNY.

When TNTC are appointed as Fund Administrator on the Effective Date, TNTC's fees and expenses will be charged as "additional expenses", and these will be paid out of the Fund's assets going forward.

Why are we making this change and how will this affect you?

We believe that FSI's historical practice of paying fees and expenses related to fund accounting services provided by BNY is out of step with the broader market. To align our practices with the market standard, fund accounting fees will now ultimately be paid by investors. However, as part of NT's appointment, and the increased scale of the relationship across the FSI group, we have negotiated competitive commercial fees with NT which are designed to result in an overall cost saving for investors after these changes.

3) Implementation of the Changes

We will update the Company's prospectus and KIIDs to include these changes. You will be able to find these on our website on the Effective Date: <https://www.firstsentierinvestors.com/uk/en/private/performance/literature.html>.

What do you need to do?

You do not need to take any action in relation to these changes at this time. We will contact you with further information as to how these changes will affect you in due course. In the meantime, you may find the included Frequently Asked Questions helpful.
