

First Sentier Global Bond Fund

Monthly Fund Factsheet

31 December 2025

- The Fund invests primarily in debt securities of government or quasi-government organization and/or issuers from countries organised, headquartered or having their primary business operations in the WGBI. Sovereign's credit downgrade or exit of EU members may lower the value of Fund.
- The Fund's investments may be concentrated in a small numbers of countries or specific region which may have higher volatility or greater loss of capital than more diversified portfolios.
- The Fund invests in sovereign debt securities which are exposed to political, social and economic risks. The Fund invests in debts or fixed income securities which may be subject to credit, interest rate, currency and credit rating reliability risks which would negatively affect its value. Investment grade securities may be subject to risk of being downgraded and the value of the Fund may be adversely affected. The Fund may invest in below investment grade, unrated debt securities which exposes to greater volatility risk, default risk and price changes due to change in the issuer's creditworthiness.
- The Fund may use FDIs for hedging and efficient portfolio management purposes, which may subject the Fund to additional liquidity, valuation, counterparty and over the counter transaction risks.
- For certain share classes, the Fund may at its discretion pay dividend out of capital or pay fees and expenses out of capital to increase distributable income and effectively a distribution out of capital. This amounts to a return or withdrawal of your original investment or from any capital gains attributable to that, and may result in an immediate decrease of NAV per share.
- It is possible that a part or entire value of your investment could be lost. You should not base your investment decision solely on this document. Please read the offering document including risk factors for details.
