# FSSA Singapore and Malaysia Growth Fund

-The Fund invests primarily in equity or equity-related securities issued by companies incorporated in, have substantial assets in, or derive significant revenues from operations in Singapore or Malaysia.

-The Fund invests in emerging markets which may have increased risks than developed markets including liquidity risk, currency risk/control, political and economic uncertainties, high degree of volatility, settlement risk and custody risk.

-Investing in small /mid-capitalisation securities may have lower liquidity and their prices are more volatile to adverse economic developments.

-The Fund's investments may be concentrated in a single sector/country, small numbers of countries or specific region which may have higher volatility or greater loss of capital than more diversified portfolios.

-The Fund may use FDIs for hedging and efficient portfolio management purposes, which may subject the Fund to additional liquidity, valuation, counterparty and over the counter transaction risks.

-It is possible that a part or entire value of your investment could be lost. You should not base your investment decision solely on this document. Please read the offering document including risk factors for details.

## Investment objective & strategy

The Fund aims to achieve long term capital appreciation and invests primarily in equity or equity-related securities issued by companies that are listed, traded or dealt in on regulated markets in Singapore or Malaysia or companies that are listed, traded or dealt in on another regulated market but that are incorporated in, have substantial assets in, or derive significant revenues from operations in Singapore or Malaysia.
