^ The weighted average credit rating is derived by taking the weighted average of the credit rating for each underlying bond in the portfolio. Modified Duration is the percentage price change of a security for a given change in yield. The weighted modified duration represents the average modified duration of the portfolio of the underlying bonds weighted by reference to their market value.

+ Allocation percentage is rounded to the nearest one decimal place and the total allocation percentage may not add up to 100%.

✧ Refers to fixed income investments of the Fund. Where available, the credit rating assigned by one of the three major external rating agencies (S&P, Moody's or Fitch) will be used. An internal rating assigned by First Sentier Investors will be used where the security is not externally rated.
