

# First Sentier Global Listed Infrastructure Fund

Monthly Fund Factsheet

31 July 2025

- The Fund invests primarily in global listed infrastructure and infrastructure-related equity securities or equity related securities worldwide. Investments in infrastructure projects may involve risks including projects not being completed on time and within budget, changes in environment laws and regulations.

- The Fund's investments may be concentrated in a single and limited/specialist sector or in fast growing economies which may have higher volatility or greater loss of capital than more diversified portfolios. The Fund may also expose to RMB currency and conversion risk. Small/ mid-capitalisation securities may have lower liquidity and their prices are more volatile to adverse economic developments. The Fund may use FDIs for hedging and efficient portfolio management purposes, which may subject the Fund to additional liquidity, valuation, counterparty and over the counter transaction risks.

- For certain share classes, the Fund may at its discretion pay dividend out of capital or pay fees and expenses out of capital to increase distributable income and effectively a distribution out of capital. This amounts to a return or withdrawal of your original investment or from any capital gains attributable to that, and may result in an immediate decrease of NAV per share.

- It is possible that a part or entire value of your investment could be lost. You should not base your investment decision solely on this document. Please read the offering document including risk factors for details.

## Investment objective & strategy

The Fund aims to achieve a total investment return consistent with income and long term capital growth. It invests primarily in a diversified portfolio of listed Infrastructure and Infrastructure-related equity securities or equity-related securities of issuers listed, traded or dealt in on regulated markets worldwide.
