a subfund of First Sentier Investors ICVC (the Company) – Fund Factsheet

31 December 2022

Investment objective and policy

The Fund aims to achieve capital growth over the long term (at least five years).

The Fund invests in shares of companies in emerging markets or where the majority of their activities take place in emerging markets. This includes companies that are listed on exchanges in developed markets. Emerging markets are countries that are progressing toward becoming advanced, usually shown by some development in financial markets, the existence of some form of stock exchange and a regulatory body.

The Fund invests in shares of high quality companies which are positioned to benefit from, and contribute to, sustainable development. Investment decisions around high quality companies are based on three key points: (i) Quality of management. (ii) Quality of the company including its social usefulness, their environmental impacts and efficiency and responsible business practices. (iii) Quality of the company's finances and their financial performance. Sustainability is a key part of the approach. The Fund may invest up to 10% in other funds. The Fund will only use derivatives to reduce risk or to manage the Fund more efficiently in limited cases.
