

Stewart Investors Worldwide Leaders Sustainability Fund Class B GBP

a subfund of First State Investments ICVC (the Company) – Fund Factsheet

31 August 2020

Investment objective and policy

The Fund aims to achieve capital growth over the long-term (five to seven years).

The Fund mainly invests in shares of companies around the world. These companies generally have a total stock market value of at least US\$3 billion. The Fund may invest in both developed and emerging market countries (countries considered to have social or business activity in the process of rapid growth). The Fund may invest in any industry. The Fund invests in shares of high quality companies, which are positioned to benefit from, and contribute to, the sustainable development of the countries in which they operate. Investment decisions around high quality companies are based on three key points: (i) Quality of management including integrity, attitude to environmental and social impacts, corporate management, long term performance and risk (ii) Quality of the company including its social usefulness, environmental impacts and efficiency and responsible business practices (iii) Quality of the company's finances and its financial performance. Sustainability is a key part of the approach. The Fund may invest up to 10% in other funds. The Fund may use derivatives to reduce risk or manage the Fund more effectively.

Risk and Reward Profile

◀ Lower Risk
Potentially Lower Rewards

Higher Risk ▶
Potentially Higher Rewards

The synthetic risk reward indicator (the SRRRI) rating is not a measure of the risk of you losing your investment but describes how much the value of the Fund went up and down in the past.

The SRRRI rating is based on historical data which may not be a reliable indication of the future risks and rewards of the Fund. We cannot guarantee that the rating of the Fund will remain the same: it may change over time.

Even the lowest rating 1 does not mean a risk free investment.

On a scale of 1 (less risky) to 7 (more risky), this Fund has a rating of 5 due to its past performance and the nature of its investments. Shares with a rating of 5 might have a higher risk, but also higher returns. Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.

The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may get back significantly less than the original amount invested.

The Fund may also experience the following risks:

Currency risk: The Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund.

Emerging market risk: emerging markets may not provide the same level of investor protection as a developed market; they may involve a higher risk than investing in developed markets.

Concentration risk: The Fund invests in a relatively small number of companies which may be riskier than a fund that invests in a large number of companies.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within five years.

For further information on risks, please refer to the Risk Factors section in the Company prospectus.

Investment should be made on the basis of the Prospectus and Key Investor Information Document. If you are in any doubt as to the suitability of any of our funds for your investment needs, please seek independent financial advice.

Important Information
