

First Sentier Global Listed Infrastructure Fund Class A EUR

a subfund of First Sentier Investors ICVC (the Company) – Fund Factsheet

31 July 2025

Investment objective and policy

The Fund aims to achieve an investment return from income and capital growth over the medium to long term (at least three years). The Fund invests in shares of companies that are involved in infrastructure around the world and are listed on exchanges worldwide.

The infrastructure sector includes operating assets from the transport, utilities, energy and communications sectors. The Fund does not invest directly in infrastructure assets. The Fund may invest up to 10% in other funds. The Fund will only use derivatives to reduce risk or to manage the Fund more efficiently in limited cases.

* The benchmark changed from the UBS Global Infrastructure & Utilities 50-50 Index to the above on 01/04/2015. The benchmark and IA sector for this Fund have been identified as a means by which investors can compare the performance of the Fund and have been chosen because their constituents most closely represent the scope of the investable assets. The benchmark and sector are not used to limit or constrain how the portfolio is constructed nor are they part of a target set for Fund performance. The IA Infrastructure Sector was split out of the IA Global Sector as of 13 September 2021 to create a new IA Infrastructure Sector. The First Sentier Global Listed Infrastructure Fund joined the new IA Infrastructure Sector at the same time. Please note that the number of funds in each Investment Association sector will vary over time.

First Sentier Global Listed Infrastructure Fund Class A EUR

a subfund of First Sentier Investors ICVC (the Company) – Fund Factsheet

31 July 2025

The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may get back significantly less than the original amount invested.

The Fund may experience the following risks:

Single sector risk: investing in a single economic sector may be riskier than investing in a number of different sectors. Investing in a larger number of sectors helps to spread risk.

Currency risk: The Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund and could create losses. Currency control decisions made by governments could affect the value of the Fund's investments and could cause the Fund to defer or suspend redemptions of its shares.

Listed Infrastructure Risk: the Fund may be vulnerable to factors that particularly affect the infrastructure sector, for example natural disasters, operational disruption and national and local environmental laws.

Emerging market risk: Emerging markets tend to be more sensitive to economic and political conditions than developed markets. Other factors include greater liquidity risk, restrictions on investment or transfer of assets, failed/delayed settlement and difficulties valuing securities.

For further information on risks, please refer to the Risk Factors section in the Company prospectus.

Investment should be made on the basis of the Prospectus and Key Investor Information Document. If you are in any doubt as to the suitability of any of our funds for your investment needs, please seek independent financial advice.

Important Information

This factsheet is a financial promotion and can be used for retail clients in the UK. Distribution is limited to Professional Clients in all other countries where lawful.

^ An initial charge of up to 0% may be levied in certain circumstances, e.g. to limit the size of the fund, including on regular savings plans and may be remitted as commission to an intermediary.

† The ongoing charge figure (OCF) is calculated on the same basis as for the Key Information Document and represents the charges you will pay over a year for as long as you hold your investment and may vary from year to year. The OCF is made up of the annual management charge and additional expenses, but excludes portfolio transaction costs.
