First Sentier Global Property Securities Fund Class VI USD

a subfund of First Sentier Investors Global Umbrella Fund plc (the Company) – Fund Factsheet

31 July 2025

The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may get back significantly less than the original amount invested.

The Fund may experience the following risks:

Property securities risk: the Fund invests in the shares of companies that are involved in property (such as real estate investment trusts) rather than in property itself. The value of these investments may fluctuate more than the underlying property assets.

Single sector risk: investing in a single economic sector may be riskier than investing in a number of different sectors. Investing in a larger number of sectors helps to spread risk.

Currency risk: The Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund and could create losses. Currency control decisions made by governments could affect the value of the Fund's investments and could cause the Fund to defer or suspend redemptions of its shares.

For further information on risks, please refer to the Risk Factors section in the Company prospectus.

Investment should be made on the basis of the Prospectus and Key Information Document. If you are in any doubt as to the suitability of any of our funds for your investment needs, please seek independent financial advice.
